

## English

In Literacy the children will develop their descriptive language through poetry and story writing. They will learn to describe settings using adjectives and descriptive phrases. They will continue to practice their basic skills and handwriting each week.

The children will be encouraged to read regularly and they will receive a spelling log so that they can practice their spellings at home.

## Mathematics

In maths the children will develop their grasp of the Four Rules. They will be taught efficient strategies to add and subtract so that they can apply them to problem solving and reasoning activities.

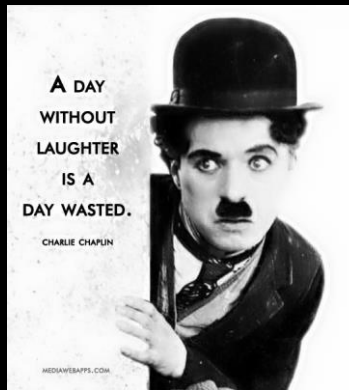

Pupils will be encouraged to learn their 2, 5 and 10 times tables at home. Some pupils will be asked to learn the 4 times table.

## Science

The children will be learning about light including how it travels and how shadows are formed. They will also study soils and rocks.

## Geography

In geography the children will be studying the world map and finding out about Europe. They will also draw a map of Britain including the major cities and physical features.

## Music

The children will be learning about the instruments of the orchestra and how different instruments and musical compositions and reflect and create different moods. They will listen to music from different composers as well as from the movies.

## Physical Education

In PE the children will develop their football skills. They will learn the rules of tag rugby and they will take part in mini games developing invasion tactics. They will also create dances based on the weather.

## Enrichment Activities

The children will be visiting Dan-yr-Ogof caves. They will be visiting the cathedral and taking part in a harvest service.

IT'S BLACK  
AND WHITE

## Religious Education

Pupils will learn about the importance of the Bible and other religious texts as part of the Special Books theme. They will read and re-tell stories from the bible.

## PSHE

The children will have circle time to discuss our values and to consider topics such as friendship, rules and personal goals.

## Computing

Just think back to the era of silent movies. The children will be learning about how to create mood with camera shots & angles, filming & editing a black & white movie trailer.

## MFL

Over the autumn term your child will be given opportunities to engage with Spanish speaking and listening activities with written tasks to support what they have learned. We will be focusing on the sounds and simple phrases. To put our Spanish lessons into context children will also learn about the country of Spain and explore the cultures and traditions.

## Art and Design

In art the children will create black and white prints. They will look at how artists, such as Van Gogh, used light and dark to create mood in their work. In DT lessons pupils will look at how moving books are created.
