

Year 2
Home Learning 1

Here are some topics which you can work from at home. All work can be recorded in a way you choose.

English	Maths	Physical	Science	Creative
One morning you wake up and you have been transported to another world. Where are you? Is it cold/hot? What can you see?	Look around the house. What things come in 2s? 5s? 3s? or 10s?	Design and carry out an assault course in your garden/park.	Create your own microhabitat for your chosen minibeast. Label the different parts.	Can you make a 3D replica of a black and white timber house to show what the houses looked like during the Great Fire of London?
Research facts about London landmarks. Create a tourist leaflet about London.	A chocolate bar costs 50p. using the coins 1p, 2p, 5p, 10p and 20p show how many different ways you can pay for it.	Create your own fire dance.	Create a pictogram/a tally chart to show which minibeasts you find in your garden/the park.	Make a London landmark from Gingerbread or cake (follow a simple recipe and measure your ingredients accurately too)
Write a description of the Great Fire of London scene.	Design and make your own clock to help you learn how to tell the time.	Create a keep fit routine. How many members of your family will join you in working out? Write down the exercises and how you felt before and after.	Choose an animal and draw its life cycle.	Make a map of London showing where the Great Fire of London started.
Can you find some more interesting words for these adjectives; big happy nice amazing	Create a 3D shape using different materials.	Create a series of movements to show the life cycle of a butterfly.	Create a word-search with different animal names in it.	Build/make London Bridge using recyclable materials from home.
