

Year 6
Home Learning 1

Here are some topics which you can work from at home. All work can be recorded in a way you choose.

English	Maths	Physical	Science	Creative
Write a diary entry of someone who is travelling back in time to meet your favourite British Monarch.	Practise your multiplication on TT Rock Stars. Make a table of your results to see how you improve.	Set yourself a daily challenge of an activity you wish to get better at. Write a diary for a week of how you are improving. <i>E.g. Handstands, Kick Ups etc.</i>	Create a fact file which outlines how light travels, how light is reflected and how shadows are formed.	Create a board game with a British Monarchy theme.
Write a persuasive letter to Boris Johnson about climate change.	Roll 2 or 3 dice to create numbers to practise long multiplication and short division.	Create a team game that your class could play. <i>(Think about the aim of the game)</i>	How many different shadows can you make?	Create a menu fit for a Queen!
Create a poem based on the British Monarchy.	Design your dream house using your knowledge of area and perimeter.	Imagine you are a Sports Journalist. Write a report on a sporting event that you have seen.	Create a homemade lava lamp and write up what you notice.	Create a 10 star hotel for children. <i>Think about:</i> - Design - Features - Layout - Rooms - Facilities
Create 10 questions based on your favourite book.	Create a maths quiz that covers the topics we have learnt this term. (Fractions/Decimals /Percentages, Measurement, Number, Geometry, Multiplication)	Research a sports personality and write a short biography including their achievements.	Create a healthy eating plate. <i>(Think about the different food groups)</i>	Create your own band which includes: - Band members - Song List - Promo poster - Album cover - Outfits
