

Year 3
Home Learning Week 14

Here are some topics which you can work from at home. All work can be recorded in a way you choose.

English	Maths	Creative/Topic
<p>Use the sheets below to practice 'persuasive writing'. Using words that really catch the reader's attention. Complete the 'House Sale' sheet.</p>	<p>Really challenge yourself on TT Rockstars!!!! Make it your business to become top class with the times tables that you find most difficult. Put aside 15 minutes each day to practice, practice, practice!!</p>	<p>Research Sports brands – Nike, Adidas etc. What is a logo? What is each Sports brands logo? What is a slogan? What is each Sports brands slogan? Use the information below to help you. Design your own Sports Brand. Give it a name an eye-catching logo and a memorable slogan.</p>
<p>Design and create a leaflet advertising your dream holiday.</p> <ul style="list-style-type: none"> • Where will it be to? • What is so amazing about it? <p>Make sure it is bright and colourful so that it is really eye-catching.</p>	<p>Challenge someone at home to the 'Rocket Race' game below. It seems quite easy at first but is more difficult than it seems. If you don't have dice then use an interactive one online.</p>	<p>Design a shoebox and a trainer to advertise your new sports brand. These are your most popular trainer and should appeal to a target audience. E.g. Children, teenagers, footballers, runners etc. Use the sheet at the bottom to design these. You can cut out the miniature shoebox template and decorate it.</p>
<p>Write a story about when you go on your dream holiday. Choose what type of story it is. It could be an adventure, suspense, funny, it's up to you!! Illustrate it too!!</p>	<p>Play the '3 in a row' game below. Challenge your family or play against yourself. Remember that you can use an interactive dice online if you don't have any at home.</p>	<p>Create a poster advertising your new sports brand. How will you make it stand out so that people will want to buy your products?</p>
<p>We haven't heard from Bebop, our friendly alien for a while. I wonder what he's been up to? Do you think he's visited planet Earth during lockdown? Write a letter to him explaining how things might be different from when he visited school at the beginning of the year.</p>	<p>How long is a minute? What can you do in a minute? Challenge a family member to the 'One minute challenge' below. You may have to use different resources. E.g. Lego instead of Multilink cubes. Before starting it estimate (guess) how many times you can do each activity in one minute. How close was your estimate?</p>	<p>Choose something that you love most of all in the world and either draw, paint or whatever medium you want to use a picture. This can be your favourite toys, TV shows, games, people, books etc. It's completely up to you. Remember you can post it online so we can see it by sending it to: work.ls.hmfa.org.uk</p>
<p>Create a comic strip showing Bebop and Jowzah visiting Earth whilst we're in lockdown. How do you think they will have felt? Would they be confused? Colour it in neatly and use speech bubbles to show what they would say.</p>	<p>Remember that at the end of Year 3 your aim was to be confident and know the 2, 5, 10, 3, 4 and 8 times tables. With that in mind, set yourself or get someone else to test you on those times tables. If you know them then great!! If you struggle a bit then that's also great because you know where you need to practice before Year 4 starts.</p>	<p>Watch Art Ninja clips on You Tube. Try and create a piece of Art using something unusual that you can find at home. E.G. Fairy liquid. Who can use the most bizarre item to create a stunning piece of art with?</p>

Rocket Race

- ★ Take turns at throwing the dice.
- ★ Throw 3 dice and add the three numbers.
- ★ Colour in the matching number on your rocket.
- ★ If it is already coloured in you miss a turn.
- ★ The first person to completely colour their rocket in is the winner.

Three in a row

Equipment – 3 dice and 2 sets of coloured counters

How to Play – Take turns to throw the dice. Add up the amount and cover a matching square with a counter. The first to get three counters in a row wins. The row may be vertical, horizontal or diagonal. If your number is already taken you miss a turn.

15	13	18	10	12
11	9	16	5	17
6	17	11	14	15
13	7	8	18	10
12	14	9	11	16
