

English

The children will continue to develop their spelling using the Spelling Shed, punctuation, grammar and handwriting skills. The main focus of the term will be both non-narrative and narrative. The children will be looking at recounts, different settings and characters to further extend their creative writing skills.

Mathematics

We will begin our term securing the pupils' knowledge of place value up to 10000, using negative numbers, multiplying and dividing mentally and improving their written calculations in addition and subtraction. They will also be improving their skills of measure using length, area, mass and volume. Pupils will further develop their reasoning skills.

Science

The science topics this term will be sound and materials, with a focus on how sound is made heard and travels. In materials- solids, liquids and gasses. The children will be carrying out experiments on filtering, evaporation and progressing on to investigating viscosity. They will also be learning the process of the water cycle and designing their own instrument to measure rain fall.

Topic

Our major focus will be on the Tudor Era. Children will be learning about Monarchs, significant events, types of living and how children lived in this period. In geography children will be learning to read a compass and movement using degrees. They will also be looking at the water cycle and linking this to their science.

YEAR 4
AUTUMN TERM
2020

Religious Education

This term the children will explore Hinduism and the different ways they worship across the world and in Britain in particular.

Art and Design

In Art the children will be studying Vincent Scarpace to create extraordinary works of art positioned in the natural landscape. We will also be developing our pencil sketching skills in our work on tone.

Computing

The children will be learning how to protect their online identity. They will design, write & debug a Scratch Maths Quiz game with if/then/else selection, broadcasting & score variables.

Music

This term the children will be focusing on different musical terms for example: pitch, rhythm creating their own compositions and relating to their Tudor topic.

Physical Education

In P.E. we will be improving our fitness, developing our skills with large balls using our hands and developing netball skills. The children will improve their tactical skills of attacking and defending as a team. We will also be covering dance.

MFL

In Spanish the children will be learning how to develop conversational skills about and read the days of the week, months and food that they enjoy. They will be applying these skills within the context of daily life in school.

PSHE

The children will develop their understanding of families, friendships and respecting themselves and others, whilst maintaining safe relationships..
