

English

In Talk for Writing we will be studying 'The Lost Thing' by Shaun Tan and 'The Nightmare Man'. This will involve learning the text, changing elements of it and rewriting the story in order to produce our own versions. We will also learn poetry.

Maths

We will focus on daily basic skills sessions as well as regular times-table sessions. The areas of maths that children will cover include place value, the four rules, angles, fractions and measurement. Children will use Times Tables Rockstars and MyMaths to develop their understanding.

Languages

This term the children will be learning and developing their language skills in Spanish. They will be learning about the days of the week, months of the year and beginning to learn to describe themselves.

Year 5 Autumn 2020

Topic

Our main focus for this term will be learning about the Egyptians and the Greeks. The children will learn where and when the Egyptians lived, the construction of the pyramids, explore the curse of Tutankhamun and learn about daily life and the Pharaohs. Our Greek study will involve learning about the achievements which they made, such as the Olympic Games. We will also be looking geographically at the location of both countries and comparing the difference from then to now.

PSHE

We will be following the Jigsaw PSHE scheme of work. The first unit we look at will be 'Being me in my world' and the second unit will be 'Celebrating differences' both of these modules will give the children greater understanding of themselves and others around them.

Computing

The children will be learning about e-safety as well as computer science and becoming more proficient at using Google Classroom.

Religious Education

This term the children will be learning about how Christians believe God is holy and loving and how this impacts their lives. They will also be thinking about why Christians believe Jesus is the Messiah.

Physical Education

The children will be learning and practising the skills and techniques necessary to be successful in Hockey. They will also be developing their dance and gymnastic skills.

Science

We will look at comparing and grouping everyday materials on their properties as well as separating and dissolving mixtures and demonstrate that changes of state can be reversible changes.

Art and Design

The children will be finding out about several different artists such as Kandinsky and Giacometti and children will explore, imitate and create the different artistic styles using various mediums and forms.
