

English

The children will continue to develop their spelling using the Spelling Shed, punctuation, grammar and handwriting skills. The main focus of the term will be both non-narrative and narrative. The children will be looking at recounts, different settings and characters to further extend their creative writing skills.

Mathematics

We will begin our term securing the pupils' knowledge of place value up to 10000, using negative numbers, multiplying and dividing mentally and improving their written calculations in addition and subtraction. They will also be improving their skills of measure using length, area, mass and volume. Pupils will further develop their reasoning skills.

Science

Identify how sound travels, differences in pitch and volume and patterns that sound creates. Identify the physical properties of liquid, solids, and gases. Explore those materials can exist in different states and that these can sometimes change. Identify the part played by evaporation and condensation in the water cycle and the link between temperature and rate of evaporation. Develop observational skills to measure and record changes in states and temperature. Working scientifically.

Topic

Our major focus will be on the Tudor Era. Children will be learning about Monarchs, significant events, types of living and how children lived in this period. In geography children will be learning to read a compass and movement using degrees. They will also be looking at the water cycle and linking this to their science.

YEAR 4

AUTUMN TERM

2021

Design

To use textiles to create a Christmas decoration.

Religious Education

This term the children will explore Hinduism and the different ways they worship across the world and in Britain in particular.

Art

In Art the children will be studying Vincent Scarpaccio to create extraordinary works of art positioned in the natural landscape. We will also be developing our pencil sketching skills in our work on tone.

Music

This term the children will be focusing on different musical terms for example: pitch, rhythm creating their own compositions.

PSHE

The children will develop their understanding of families, friendships and respecting themselves and others, whilst maintaining safe relationships.

Physical Education

In P.E. we will be improving our fitness, developing our skills with large balls using our hands and developing netball skills. The children will improve their tactical skills of attacking and defending as a team. We will also be covering dance.

MFL

In Spanish the children will be learning how to develop conversational skills about and read the days of the week, months and food that they enjoy.

Computing

Internet safety, using Google Classroom and Coding using Scratch online.
