

Maths

In Maths, we will be continuing to study all aspects of arithmetic and reasoning in preparation for SATs. We will continue to use the four rules which include formal written methods and will then apply them to demonstrate the mastery of this within a range of question types. We will also be solving problems involving the calculation and conversion of units of measure and will continue to practise our estimation knowledge as a tool for checking for accuracy.

English

In our writing, we will continue to explore a range of different genres including; flashbacks, balanced arguments, play scripts and poetry. Using technical language within a variety of text types will continue to be developed. As well as this, spelling, grammar and punctuation will be a constant focus throughout this term. In reading, we will practice their inference and deduction skills by studying a range of texts.

Science

As part of our living things and their habitats topic, we will be describing how living things are classified into broad groups according to common observable characteristics and based on similarities and differences, including micro-organisms, plants and animals. We will also give reasons for classifying plants and animals based on specific characteristics.

Year 6 Summer Term 2023

Geography

As part of our topic this term, we will focus on the physical aspects of Geography, particularly on earthquakes in China and other parts of Asia.

PSHE

During this term, Sex and Relationship Education will be taught. There will be lots of opportunities for discussion and a question and answer session.

Physical Education

In P.E, we will play competitive games, applying basic principle. We will also participate in Sports Day as well as HMFA athletics where we try for personal bests and compare previous performances. Oaker Wood will also provide experience of outdoor, adventurous activities.

Computing

We will be completing a project – designing a product - using all of the skills used so far in school. We will evaluate, adapt and debug code to make it suitable and efficient for our needs; use a software program (TinkerCAD.com) to design our products and then create our own websites and video adverts to promote our product.

R .E

In R.E, we will be learning about Christianity and what kind of King Jesus is. Also, we will learn about how faith helps people when times get hard.

Art & Design and Technology

We will be focusing on improving the pupils' mastery of art techniques by paying attention to drawing and exploring the concepts of photomontage and photorealism. For DT, we will be undertaking a project with our partners, HCA, using a range of skills and materials.

Music

In Music, we will perform, with control and expression, music sets which have been created and developed by them in small groups through the Year 6 show.
